INTRODUCTION

*“If you’re not being treated with love and respect, check your price tag. Perhaps you’ve marked yourself down. It’s you who tell people what you’re worth by what you accept. Get off the clearance rack and get behind the glass where they keep the valuables. The bottom line is, value yourself more.” ~

Forget everything you think you know about men and dating. What men really want is a world away from what you’ve been mistakenly taught and conditioned into thinking they want. Your whole life you’ve been jumping through hoops of fire, pulling all kinds of special moves to be the type of woman who’ll get a man’s attention, and hold it. But no matter what you try you always seem to end up oscillating between the same emotionally unavailable man who’s verging on the narcissistic asshole spectrum, but who weirdly enough you have incredible chemistry with. And the weak, wishy washy average Joe who can’t make a decision to save his life and who’s about as sexually exciting as a date with your brother.

Attracting a high value, quality man and dating experience that will tick all your boxes and potentially lead to your most amazing, long-

lasting love might seem like a pipedream. It's actually much easier than you think. And that pipe is being smoked by the women who know how. And I know your past dating encounters and relationships tell a different story, but you're about to discover that who and what you experience whilst dating, isn't about chance or luck. It's about alignment. One way or another you're aligned with and commanding through energetic resonance, every dating experience you've ever had. You're just not doing it consciously, and instead of creating a top shelf experience you're more often than not rolling around in the basement with men who barely even bothered to earn their way into a conversation. That's all about to change.

Date Like A Diamond is not your average dating book. Whilst you will learn some potent strategies for dazzling your dates with your unworldly wit and diamond standards, this book is about activating your power at the deepest level. So that your dating and relationship experiences become effortless, fun and you come out on top, literally and metaphorically speaking. This book will teach you what most other dating resources or relationship coaches won't. Dating, like all life experience is dependent on your inner world and the energetic frequencies of that hold you in resonance with your external experience. You have a level of conscious and a tone of energetic frequency that you hold in your inner world and emit into the dating arena that attracts the attention of the men you meet and

dictates the quality of dates and relationships you have. If you want to change your experience you have to first change that tone.

There's no shortage of good men in the world. There's also no shortage of smart, beautiful women ready to get swept away with ingenuous charm and empty promises that end in yet another bleeding and broken heart. Modern dating has made it easier than ever for men and women to connect all over the globe. But men have a very different set of rules for dating than women, and until women understand these rules and trump them with a few of their own, they'll continue to be at the mercy of the men they date.

Waiting on a text that next comes, praying for a call, casting spells and visiting psychics armed with an array of eager questions that will give hope for a green light to the next step. Is he the one? Can he be trusted? Is he ready for a relationship, and if so, how long will it last? And what can I do to move things along, tie him down and stop if from turning to shit, again?

Understanding men and the energetics of dating and relationships is crucial to you taking control of your dating experiences. You need to learn how to read men and to cut the dead wood fast, before the bad apple spoils the barrel of high charge energy that you're cultivating for your King to magnetize to. You also need to know the ins and outs and the energetic how to's of evolving that first date or

special experience into long lasting, high quality love. The kind of love that will never have you second guessing yourself because you'll always know that you are the prize. You always were, and you always will be, but until you recognize for yourself, deep down in your bones where truth lands, he won't know it either. And you'll keep getting treated like you just don't matter, because if you don't value you, he won't value you either. In fact, he can't, because you can't be in energetic resonance with being valued if you don't first value yourself.

Most women don't know the rules for dating and still haven't yet learned how to date right, and yes there's a right way. They also haven't learned how to activate their own inner diamond energy which is the key to stepping up and embodying the authentic high feminine Queen energy that will not only attract a King, but will make his cock hard and his knees weak at the mere thought of being in your presence. And he'll want to stay there for as long as your frequency allows him to do so.

Too many women are still dating by default, laying their cards and hearts out on the first date table and trying to impress men without first establishing who these men are and what their intentions are. Women in droves are showing up in what they think is Queen energy, but is nothing more than a façade masked by plump lips and

perky tits. It's a poor copy; a fake, paper-thin confidence that's more akin to wounded princess than regal Queen. And instead of attracting high frequency men from a place of power, authenticity and trust, they're attracting low vibing men who align with the very unconscious relationship fears that most women are trying to avoid, but that keep coming true, time and again. And that's because they're still energetically resonating with the frequency of their own unresolved past hurts and the type of men who are more interested in fucking them than loving them.

If you've found your way to reading this book it's likely that you've already dated "*that guy*." You know the one, in-fact you've dated him more than once. *That guy* is one of those men who was the toxic flame to your love-struck moth. The guy who for whatever reason was ruthless in his emotional unavailability and lack of commitment, but who wooed you in lightning speed and then slowly but surely dropped one ball after the other. You were just a pawn in his game, a game that tore your heart out and left you feeling tossed aside like a wilting salad, rejected and mourning the loss of what you thought was a genuine connection, a soul mate love even. A game that ended with you looking down your own nose at your broken-hearted self and thinking, "WFT, why can't I ever trust men?"

“Why do I keep attracting men who can’t give me what I want? I’m a smart, professional woman. How come I never see it coming, and why can’t I stop it from happening?”

And just how fucking long do I have to keep going through this same struggle before I find long lasting love with my King?”

Buckle up sister the answers to those questions and much more are in the pages of this book. And if you understand this information and if you follow the instructions, you’ll create the most incredible shift in your dating life that you’ll struggle at first to believe. But that will repeatedly reap you the same benefits and outcomes every single date.

It’s the aim of this book that you never date “*that guy*” again. In fact, he’s about to become your *final straw*. The one that snapped the camel’s back and led you to discovering your true value that will catapult you into the high feminine frequency that commands a King’s attention and love.

And maybe right now you don’t believe that man or kind of love exists. After all, the kind of guys you’ve been dating are common as dirt. To find *that* special kind of love is like looking for a needle in a field of haystacks. And even if he does exist and even if you found him, why would he want you? After all, you’re damaged goods. You’ve been through one fire too many times and played like a fiddle

until every string of confidence has been snapped. You're struggling to believe you'll ever find the right man. And that he'll stick around and love you for who you are.

The proof of pudding is always in the tasting, meaning when you practise the techniques in this book, you'll get your dessert. The type of men you attract will not be like the men you've attracted before. Men, who looking back, there were signs but you'd hoped they'd step up, rise to meet you, be the man you've been praying for. You'll no longer be falling for potential and dating a fantasy. This book is about helping you find the real deal.

And the man you once thought was your knight in shining armour who turned into your worst nightmare, he's actually a *gift*. Because he's the catalyst that has led you to this book and what I'm going to share with you isn't only going to change your dating habits forever and end the painful relationship pattern you keep finding yourself stuck in. But it will lead you to the greatest love affair you've never had, and that's the one with yourself. This book is going to help lay the energetic foundation for you to match the frequency of your most exquisite love. And if you follow the instructions, I guarantee, *that guy*, although he may not be your first heartbreak, he'll most definitely be your last.

So, take a moment to give thanks for the last *emotionally unavailable man* who was your *final straw*. Because *THIS* my darling diamond, is where *THAT* ends.

You're about to unlock the *secrets* of successful dating and relationships and from hereon in let no man treat you less than the valuable diamond you've always been on the inside, but haven't yet recognised and therefore activated.

And that shift won't just be felt in your dating experiences, but in every other aspect of your life.

This book is a labour of love from my soul to yours. It's a vessel through which the energy of supreme self-empowerment and self-expression travels. A work of art seeped in codes of higher consciousness that will infiltrate deep into you psyche to activate your own dormant codes within.

I've been in your shoes; I've walked the path. I've been burned, played, let down, hood-winked, blind-sighted, promised the stars, the moon and the world and been left empty, disillusioned and confused, wondering when, if ever I'll find true love. I've journeyed deep into the rabbit hole, through the cosmic multiverse and divine matrix, and I've not only discovered the secrets of how to attract and create the most amazing relationships, across the board. But I've also learned how to end them. Because leaving a relationship consciously, especially when you have children, is just as important as starting one (more on this later.)

I've coached countless women and men through their relationship problems and prior to writing this book made it my mission to discover what's really going on at the deepest level between men and women. I wanted to know why when dating, relationships and authentic love and connection is something the world wants, when is it so hard? I wanted answers and I found them.

Working with men in the transformational coaching space helped me understand men mentally, emotionally, spiritually and energetically. I know what makes the masculine tick, and I know what men really want. I also know the mistakes that women are making when it comes to dating. I know their stories; their hidden shame and secret struggles and my aim is put it all right and end the suffering.

I've crammed years of knowledge, wisdom, professional training, teaching, spiritual practice and personal and intuitive insight into this book. When you use the techniques I'm going to share with you, I promise, from here on in your dating and relationship experiences will be a world away from what you've known and experienced in your past.

This book is a guiding light for women leading them into empowerment and to raising their dating standards higher to stop settling for dodgy dating practises and the ambiguity of casual dating, empty sex and shoddy treatment at the hands of men who really couldn't give a fuck about them. Instead I want to help move

women forwards, towards authentic, long lasting love with emotionally available, commitment ready men, who'll treat them like a fucking Queen.

If you're single this book will help you get *relationship ready*. Because when your soul-mate love shows up, lady, you need to be aligned, otherwise he won't stick. And if you're already in a relationship it's never too late to put into practice the teachings from this book because relationships don't end once you commit, that's just the beginning. And if your relationship isn't growing it's dying. It's because so many relationships don't grow that separation and divorce is showing no signs of slowing down. And unfortunately, that's a very messy business for most. I want to help end that.

Practising the tools and techniques in this book will not only save you precious time and energy but will also save you from a lot of unnecessary pain, drama and heartache. And can even save you your marriage, and the cost of a divorce lawyer. I want women (and men) to enjoy the kind of heart-centred, soul-aligned, safe, successful dating experiences that lead to high-quality, long lasting, soul-mate love. And **Date Like A Diamond** is the book to make that happen.

You don't want to miss this!-
